## Euromaidan: Ukraine's Self-Organizing Revolution

Author: [Nadia Diuk](#) [1]

In: World Affairs, No March/April, 2014

Report by a Vice-President of Endowment for Democracy covering the developments of Ukraine's demonstrations until the end of December 2014. It stresses the creative and disciplined popular organisation; the unwillingness to rely on politicians; the breadth of support not only in Kiev but in other cities of eastern Ukraine; how provocateurs have been kept out of Maidan and how violence was avoided when responding to brutal attempts to clear the square.
