

2020 is the year of nuclear disarmament (You heard me right)

Author: [Vincent Intondi](#) [1]

In: Instick, 2020

Following the rise of tensions between the US and Iran during 2019 and the increased of awareness within the public of the catastrophic consequences of a nuclear attack, this article critically discuss the potential for movements to advocate a 'No First Use' policy in the US, and the potential embedded within the Treaty for the Prohibition of Nuclear Weapons.
