## Year of Publication: 1990

Whyte, John, [Interpreting Northern Ireland](#) [1], Foreword by Garret Fitzgerald, Oxford, Clarendon Press, 1990, pp. 328

Reviews the principal interpretations of the causes of conflict in Northern Ireland, including various Nationalist, Unionist and Marxist accounts, and proposed solutions. Concludes that both the traditional nationalist and traditional unionist interpretations had lost their popularity over the previous 20 years to be replaced by one prioritizing internal causes. Points also to the serious disagreements among Marxist commentators but acknowledges the major contribution a number of them, including McCann, Farrell, Bew, Gibbon and Patterson, have made to the literature, Suggests a new paradigm may be needed which, among other things, would take account of the contrast between different parts of Northern Ireland where areas only a few miles apart can differ enormously 'in religious mix, in economic circumstances, in the level of violence, in political attitudes.'

## Year of Publication: 1983

Whyte, John, [How Much Discrimination Was There under the Unionist Regime, 1921-72?](#) [2], In Gallagher, Tom ; O'Connell, James , [Contemporary Irish Studies](#) [3] Manchester, Manchester University Press, , 1983, pp. 144, pp. 1-35

Detached assessment of the evidence. Concludes that while discrimination against Catholics in this period certainly existed, it was more marked in some policy areas than others – more marked in electoral practices (especially at local government level), public employment and policing, generally less so in private employment, public housing and regional policy. But he notes that geographically, also, there were marked differences, with discrimination being more widespread in the west, which had a higher Catholic population.
