Colectivo Utopía Contagiosa, [Política NoViolenta y Lucha Social. Alternativa NoViolenta a la defensa militar](#) [1], Madrid, Ecologistas en Acción, 2012, pp. 302

This book summarizes the long term work of the two person collective Utopía Contagiosa on defense alternatives from an antimilitarist point of view. The model of military defense is challenged from a nonviolence- cooperation paradigm which conflicts with the hegemonic paradigm of domination and violence. The authors then propose transarmament, suggesting criteria, methodological orientations and a two-phase implementation, together with several proposals for sectorial transarmament for debate.
