Ischenko, Volodymyr, [Interview: Ukraine's Fractures](#) [1], New Left Review, no. 87 (May/June), 2014

Assessment by a Marxist sociologist in Ukraine who demonstrated in 2000 against the Kuchma regime. Topics include: the role of the far right in Euromaidan (he argues that an organised and effective minority was promoting nationalist slogans); the changing of the social composition of protesters; the *interim* government; the cultural roots of the eastern Ukrainian uprisings for independence, and the election of President Poroshenko.
