Bartkowsky, Maciej, [Analyse: Die Maidan-Revolution in der Ukraine - Gewaltloser Widerstand in gewaltgeladener Situation \[1\]](#), (online), bpb, 2014

This study of the Maidan Revolution analyzes what Bartkowsky calls nonviolent resistance in violence-loaded situations. He argues that the major use of force and violence by the regime was not a sign of strength, but of the fundamental weakening of the regime and seemed to be a desperate attempt to avert its threatened defeat. Therefore Janukowytsch's fall was preceded by three months of mobilization and civil resistance that undermined the already weak defences of the regime.

Year of Publication: 2013

Bartkowsky, Maciej ; Kahf, Mohja, [Civil Resistance: A Tale of Two Struggles \[2\]](#), Part 1 and 2, Open Democracy, 2013

The articles discuss the 'tragedy' of nonviolent resistance being overtaken by armed resistance and the tendency of the nonviolent activism to be obscured, and outline the role of nonviolent resistance in Syria so far.
