Arriaza, Karen ; Regina, Berumen, [#MeToo in Spain and France: Stopping the abuse towards ordinary women](#) [1], Interactions: Studies in Communication & Culture, Vol. 10, no. 3, 2019, pp. 169-184

In Spain and France, a lot of attention was initially given to Alyssa Milano's #Me Too initiative in October 2017 and Oprah Winfrey's #Time's Up claim in January 2018. The authors argue that in Spain and France #MeToo was focused as a way for ordinary women to denounce the sexual abuse and harassment they had been suffering, sometimes for decades, in the past, and the role of well-known actors or powerful personalities was almost non-existent. But the #MeToo movement did play a significant role in supporting women, individually or collectively, to oppose sexual abuse and harassment.
