## Year of Publication: 2019

Mbile, Peter ; Atangana, Alain ; Mbenda, Rosette, [Women and landscape restoration: a preliminary assessment of women led restoration activities in Cameroon](#) [1], Environment, Development and Sustainability 21, 2019, pp. 2891-2911

The authors note that the Cameroon government had announced the goal of restoring 12 million hectares of degraded land by 2030 and had applied for support from the Bonn Challenge and AFR100 initiatives. They argue that women, who constitute over 60% of the rural workforce in Central Africa, have a crucial role to play, and examine some forms of restoration so far undertaken by women's groups in Cameroon.
