

Teoria Della Nonviolenza

Edizioni del Movimento Nonviolento, Perugia , 1980

Italian philosopher Aldo Capitini expounds the principles and practices which he regards as inherent in nonviolence and explains his own ethics-based philosophy, which informs his political analysis. He evaluates the role of the United Nations, the Cold War, the relations between Italy and Europe, the arguments for economic controls versus the free market, the global role of the USA and the confrontation between East and West. He argues that only an individual transformation of the actors concerned will favour the implementation of new forms of politics and, therefore, lead to new realities
