

Rebellion in the Veins: Political Struggle in Bolivia, 1952-82

Author: [James Dunkerley](#) [1]

Verso, London, 1984, pp. 385

Notes that 1952 revolution is not well covered in the literature (even in Spanish). Charts changing economic and political context, giving weight to the role of the militant working class in the mines, but also notes role of Catholic Church on human rights (pp. 128-31).
