

Digging Up Trouble: The Environment, Protest and Opencast Mining

Author(s): [Huw Beynon](#) [1], [Andrew Cox](#) [2], [Ray Hudson](#) [3]

Rivers Oram, London, 1999, pp. 288

General analysis of impact of opencast (strip) mining which spread in Britain in the 1980s. Chapter 7 'Changing Patterns of Protest' (pp. 167-206) looks at the collaboration between the National Union of Miners' Support Groups and environmental groups to oppose mines creating pollution, and examines the turn from conventional protest to direct action.
