

Nonviolenza, mafia e anti-mafia

Author: [Umberto Santino](#) [1]

Centro Impastato, Palermo, 2005

Santino analyses the Mafia organisation and social consensus. He sees in the latter a supportive element to mafia organisations as well as the ground on which it is possible to build forms of nonviolent education and practices that could lead to a change within the current system. He adopts a 'paradigm of complexity' at the foundation of the epistemological and methodological approach to the mafia phenomenon and identifies the limit of the military and repressive reaction against it. In so doing, he discusses what action civil society can undertake to sustain nonviolent forms of resistance against mafia.
