

Strappare Una Generazione Alla Mafia. Lineamenti Di Pedagogia Alternativa

Edizioni Di Girolamo, Trapani, 2005, pp. 191

In this work, Cavadi argues that the anti-mafia movement should be as organised as mafia organisations are. He proposes that alongside the repressive forces of police and policing institutions, a predominant and pedagogical role should be fulfilled by schools, churches and social organisations and should aim at counterposing a moral and intellectual form of resistance to the mafia phenomenon.
