

Apocalypse Never. Forging The Path To A Nuclear Weapon-Free World

Author: [Ted Daley](#) [1]

Rutgers University Press, New Brunswick, New Jersey and London, 2010, pp. 296

Ted Daley argues that maintaining the nuclear double standard by which some countries permit themselves reliance on nuclear weapons, while denying them to others is military unnecessary, morally unjustifiable, and politically unsustainable. He insists on the necessity of considering nuclear abolition as an attainable political goal rather than a utopia.
