In: Popular Resistance, 2015

Reports on the pressure from multinational companies to extract hydrocarbons from rocks through fracking in Bolivia, Columbia, Venezuela, Paraguay, Chile, Argentina, Brazil and Mexico, and documents the harmful environmental effects including contamination of water supplies. The report also notes the growing resistance in Mexico, Brazil and Argentina to fracking, for example the No Fracking Brazil Coalition (Coesus) protests outside the offices of fossil fuel companies tendering for areas to frack in October 2015, with international support.
