Editor: [Samuel Ridriguez](#) [1]

Libros en Accion, Madrid, 2015, pp. 153

This book, edited by the international coordinator of Ecologistas en Accion, covers 15 varied struggles against fracking around the world, and is intended to be a source of inspiration for continued resistance. Many are first person accounts, by those involved. Chapters cover personal opposition fracking in the courts or at the municipal level, resistance by local farmers to corporations backed by the government, as in Poland and Romania and the campaign for 'frack free' municipalities in the Basque territory of Spain. There are also accounts of resistance from Argentina, Algeria, South Africa, Australia, the UK (against drilling in Sussex) and Northern Ireland, and on the role of ATTA C in France. Includes a timeline and 'some snapshots' of the resistance, as well as some conclusions drawn by the editor.
