

## **Extractivism In Latin America**

Action Fund of Latin America 2016, pp. 59

This report by the feminist civil society body, Urgent Action Fund of Latin America and the Caribbean, focuses on the role of women in protecting and defending nature, and warns of increasing risks to their lives and environment. The report discusses 'the extractive model' and the social-environmental conflicts it creates, and also the disturbing militarization and violations of women's rights, including those defending their environment. The report outlines proposals made by women for defence of territory, and also stresses the diversity of the approaches, organizations and activities developed by Latin American women.
