

ECLAC: At least 2,795 were victims of femicide in 23 countries of Latin America and the Caribbean in 2017

Gender Equality Observatory for Latin America and the Caribbean

2017

Stressing the need to create inter-agency agreements, the 2017 Economic Commission for the Latin America and the Caribbean's report on femicide shows that Brazil topped the list of femicides (with 1,133 victims confirmed in 2017). In 2016, Honduras recorded 5.8 femicides for every 100,000 women. In Guatemala, the Dominican Republic and Bolivia, high rates were also seen in 2017, equal to or above 2 cases for every 100,000 women. In the region, only Panama, Peru and Venezuela have rates below 1.0. In the Caribbean, four countries accounted for a total of 35 femicide victims in 2017: Belize (9 victims), the British Virgin Islands (1), Saint Lucia (4) and Trinidad and Tobago (21). In the same year, Guyana and Jamaica — which only have data on intimate femicides — reported the deaths of 34 and 15 women, respectively, at the hands of their current or former partners. In 2017, the rates of intimate femicides in Latin America ranged between a maximum of 1.98 for every 100,000 women in the Dominican Republic, to a minimum of 0.47 in Chile.
