

Sexual Violence at Canadian Universities: Activism, Institutional Responses & Strategies for Change

Author: [Elizabeth Quinlan](#) [1]

Wilfrid Laurier University Press, Waterloo, Ontario, 2017, pp. 360

This book addresses a major problem of rape and rape culture on campus, revealed by media coverage of 'rape chants' at Saint Mary's University, misogynistic Facebook posts from Dalhousie University's dental school, and high-profile incidents of sexual violence at other Canadian universities. University administrations were called to account for their cover-ups and misguided responses. Quinlan explores the causes and consequences of sexual violence on campus as well as strategies for its elimination, drawing together original case studies, empirical research, and theoretical writings by scholars and community and campus activists. Topics covered are the costs of campus sexual violence on students and university communities, the efficacy of existing university sexual assault policies and institutional responses, and historical and contemporary forms of activism associated with campus sexual violence.
