

Thomson Reuters Foundation's survey on the 10 most dangerous countries for women in 2018

Thomson Reuters Foundation2018

The survey reports on the worst countries in the world for women in terms of health (e.g. maternal mortality, lack of access to health care facilities, lack of control over reproductive rights); discrimination (e.g. over land rights, job rights, property or inheritance); culture and religion (e.g. acid attacks, FGM, forced marriages); sexual violence (e.g. Rape, rape as a weapon of war, domestic rape or by a stranger); non-sexual violence (e.g. domestic violence); and human trafficking (including domestic servitude, forced labour, sexual slavery and forced marriage). The methodology is outlined and each listed country is fully described in each of the categories explored by the survey.
