## Pacifism Appeal

Editor(s): [Jorg Kustermans](#) [1], [Tom Sauer](#) [2], [Dominiek Lootens](#) [3], [Barbara Segaert](#) [4]

Palgrave Macmillan, Cham, 2019, pp. 247

The starting point for this book is the editors' belief in the need to revive and redefine pacifist thought for the 21st century, on the grounds that just war theory (dominant in recent decades) has proved insufficient, and that rejection of any limits on warfare is obviously undesirable. Pacifism has proved inspirational in the past, so its potential should be explored.
