

The Post-Political Link Between Gender and Climate Change: The Case of the Nationally Determined Contributions Support Programme

Author(s): [Felipe Ruiz](#) [1], [Juan Pablo Vallejo](#) [2]

In: Contexto Internacional, Vol 41, No 2, 2019

This is an article querying the emphasis on gender in the UN Development Programme. Examining how gender was incorporated into Colombia's Low-Carbon Development Strategy, they suggest that there are various risks in promoting feminist ideas within 'mainstream institutional frameworks'.
