

Yes. We. Canopy: Can alliances between indigenous people and young climate activists help to save the Amazon?

Author: [Jonathan Watts](#) [1]

In: Guardian Weekly, 2019, pp. 15-17

Account of preparation by indigenous communities to resist the destruction of the rainforest by farmers, miners and loggers backed by far right President Jair Bolsonaro. The article focuses on the discussions, held in the small riverine community Manolito in Terro do Meio, between indigenous people and international activists, including Extinction Rebellion UK organisers, Belgian activists in the School Strike and from the Russian feminist punk group Pussy Riot. Watts outlines the wider Brazilian context, and discusses how international participants revised their ideas and campaigning plans as a result of the meeting, which was named 'Amazon: Centro do Mundo'.
