## **Changing Tides? On How Popular Support for Feminism Increased After the Arab Spring**

Author(s): [Saskia Glas](#) [1], [Niels Spierings](#) [2]

In: Double-Edged Politics on Women's Rights in the MENA Region. Gender and Politics, pp. 131-154

The authors studied the impact of feminism in some Arab countries following the Arab Spring uprising across North Africa in 2011. They assessed the specific forms of the uprisings. They also examined whether pre-existing anti-Western value and gender relations influenced the visibility and resonance of feminist norms.
