

Ecocide in the Amazon: the contested politics of environmental rights in Brazil

Author(s): [Malayna Raftopoulos](#) [1], [Joanna Morley](#) [2]

In: The International Journal of Human Rights, 2020

This article uses the 2019 fires in the Brazilian Amazon as a starting point to consider the political conflicts over environmental rights in Brazil. The authors argue that the concept of ecocide provides a useful focus for examining the social and ecological consequences of President Bolsonaro's 'extractive imperialism'. They also stress the failure of international bodies to prevent continuing destruction of the natural environment.
