

How Latin American Activists are Harnessing the Black Lives Matter Movement

Author: [Jennifer Bitterly](#) [1]

In: The Progressive, 2020

The article starts with protests about police killing of an Afro-Columbian man in Bogota the same week George Floyd was killed, noting the general impact of the BLM movement on anti-racist and Afro-Latino organizations. The author also sketches in the historical background of the Spanish colonies enslaving millions of Africans, and subsequent treatment of racial issues, including the 'myth' of multiculturalism.
