## **Liberating abortion pills in legally restricted settings**

in Henne, Kathryn and Rita Shah (eds.) Routledge Handbook of Public Criminologies

Author: [Mariana Prandini](#) [1]

Taylor & Francis, New York and London, 2020, pp. 11

Mariana Prandini examines how Brazilian feminists mobilized against the criminalization of abortion in August 2018, when people from different countries in Latin America gathered for a week for the Festival for Women's Lives. Brazilian, Uruguayan and Argentinian activists exchanged information about their own struggles for abortion rights. Prandini also analyses the criminalization of the abortion pill and its effect on abortion activism in Brazil.
